

# SWIM BY FOR DINNER

Gather a group of friends together for dinner. Divide the menu between the group (one makes a starter, one provides main, one dessert....divide it further depending on the number of guests...perhaps even cocktails & canapes?!). Move from each participants' house enjoying each course in a different venue – or stay put and relax, give your flippers a rest.

£10 per head – think of the saving you're making a) not going to a restaurant b) not providing food for a whole dinner party.

Don't forget to check for any food allergies or vegetarians etc.
