Equality Statement

At St Mary's we value that fact that all staff, pupils and parents have identities which are unique to them.

Our aims:

- Individuals and groups within our community should feel confident and secure in their own identity.
- Individuals and groups within our community should feel represented and celebrated.
- Young people feel confident to exercise their right to speak out and engage as active citizens with the issues around racism and inequality that they care about.
- Racial inequalities and oppressive racial norms and assumptions will be challenged.
- Any forms for prejudice and discrimination will be challenged.
